

I encourage you strongly to censure Sinclair Broadcasting for their airing of 'Stolen Honor'. It is evident that this does not fall under news, and therefore is effectively a campaign contribution to the Bush/Cheney presidential ticket.

Sinclair Broadcasting is not serving the public interest, and this action of theirs is a strong case for de-centralization of the Broadcast industry. We need to roll back the de-regulation that has happened in the past ten years. Homogenization hurts the American consumer, and the fundamental basis of our democracy.

Thank you for your time and attention to this matter.

Sincerely  
Andre Bouchard
